Fountain Hills Town Clerk, and other interested parties:

The Town of Fountain Hills (the Town), Arizona, Annual Report of the Collection and Use of Development Fees for the Fiscal Year Ended June 30, 2012 is provided for public inspection and review in accordance with Arizona Revised Statutes (ARS) Section 9-463.05(G) “Development fees; imposition by cities and towns; annual report.” Effective August 12, 2005, ARS Section 9-463.05 was amended to require an annual report that accounts for the collection and use of development fees. The annual report must be submitted to the Town Clerk within ninety days following the end of the fiscal year in order for the Town to continue collecting development fees. The report must provide the balance of each fund maintained for each type of development fee at the beginning and end of the year along with the current year’s activity. The required components of current year activity include development fee collections, interest earnings, repayment of bonds and advances; capital improvement project expenditures include project location and expenditures for each purpose other than a capital project that is the subject of a development fee.

Development fees (also sometimes known as impact fees) are one-time payments collected on new building permits taken out in the Town. The fees are intended to reduce the financial impact of residential and commercial growth on existing Town infrastructure and service delivery. In general, development fees are defined as “one-time capital recovery charges assessed against new development as a way to recover a proportional share of the cost of capital facilities constructed to provide service capacity for new customers”. Development fees may not be used for replacement of existing facilities nor may they be used to cover operating expenses.

Currently, the Town of Fountain Hills sets its development fees based on recommendations received from consultants periodically contracted to do studies of the Town’s development fees. The Town’s Capital Improvement/Infrastructure Improvement (CIP/IIP) plan is an integral part of each of the studies and takes into account projected growth. The Town’s CIP/IIP is available from the Town Clerk or on the Town’s website at fh.az.gov/finance under Budgets and Reports.

For Fiscal Year 2012 the Town had seven categories of development fees, as follows:

Fund 710	Law Enforcement	facilities, vehicles, equipment
Fund 720	Fire and Emergency	facilities, vehicles, equipment
Fund 730	Streets	right-of-way costs, intersection development
Fund 740	Parks and Recreation	developing new parks

Fund 750	Open Space	conservation improvements
Fund 760	Library/Museum	buildings and/or collection materials
Fund 770	General Government	growth related facilities, equipment, vehicles

As required by state law, the following pages include (as applicable):

1. The amount assessed by the municipality for each type of development fee
2. The balance of each fund maintained for each type of development fee assessed as of the beginning and end of the fiscal year.
3. The amount of interest or other earnings on the monies in each fund as of the end of the fiscal year.
4. The amount of development fee monies used to repay:
 - a. Bonds issued by the municipality to pay the cost of capital improvement project that is the subject of a development fee assessment.
 - b. Monies advanced by the municipality from funds other than the funds established for development fees in order to pay the cost of a capital improvement project that is the subject of a development fee assessment.
5. The amount of development fee monies spent on each capital improvement project that is the subject of a development fee assessment and the physical location of each capital improvement project.
6. The amount of development fee monies spent for each purpose other than a capital improvement project that is the subject of a development fee assessment.

This report complies with ARS Section 9-463.05 as amended. The information contained in this report is based on the Town's fund financial statements but is un-audited data. If you have any questions about this report or need additional information, contact:

Please also note that on May 15, 2008 the Town Council of Fountain Hills adopted Ordinance No. 08-13 that contains an automatic adjustment provision stating that “The Development fees in this section will automatically adjust for inflation using the Engineering News Record – 20 city construction cost index (ENR-CCI) on the first day of each fiscal year. The Town shall provide public notice of those adjustments at least thirty days in advance of their effective date, pursuant to 9-500.46.05(F), as amended. The last time the fees increased as a result of inflation was August 8, 2008.
