Town of Fountain Hills, AZ
FY14-15 ADOPTED BUDGET IN BRIEF

To frame the many decisions that have laid the foundation for projections contained in the FY14-15 budget, it is necessary to reflect briefly on the past fiscal year. FY13-14 began with an expectation of an economic recovery with a modest increase in revenues—the local economy is showing signs of a moderate recovery this fiscal year. However, FY14-15 and beyond brings new challenges with a shift in priorities; the Town Council has established the management of the Town’s infrastructure (streets) on a priority level with public safety in FY13-14. Unfortunately, the economic recovery has slowed the Town’s ability to provide an asphalt replacement/maintenance schedule as desired.

In order to balance the budget, not only for the upcoming fiscal year but for the foreseeable future, the Budget Committee, Council, and staff are working together to develop a sustainable plan that incorporates the citizens’ strategic plan and the Council goals. The plan has consolidated departments to better position the Town as we move forward and continues to be responsive while controlling costs.

Two new funds were created for FY14-15. The Facility Replacement fund was established as a way of funding major repairs and maintenance for Town-owned property and equipment. Effective January 1, 2014, the Chamber of Commerce cancelled their contract with the Town that provided Tourism services, so the Tourism fund was established for this purpose.

To serve and respect, and provide trust and stewardship.

Long-Term Concerns and Issues
The primary long-term issues that the Town of Fountain Hills is facing are:
- Aging infrastructure
- Decreased proportionate share of State Shared revenues due to increased population of surrounding communities
- Lack of sustainable or diversified revenue base
- Dependence upon State Shared revenues
- Business attraction and retention
- Implementation of a Downtown Vision Master Plan

Strategic Plan 2010 honors and continues the Fountain Hills tradition of citizens-driven planning. Some of the goals will span decades, so it is essential that the updated Plan provides both long-range direction to achieve our vision yet have the flexibility to implement the latest and best technologies and strategies as opportunities arise.

Based on citizen input, the Strategic Plan is designed to guide our future decisions grounded on these common values:
- Civility
- Civic Responsibility
- Environmental Stewardship
- Education, Learning and Culture
- Economic Vitality
- Maintain and Improve Community Infrastructure
- Recreational Opportunities and Amenities
- Public Safety, Health and Welfare

TOWN OF FOUNTAIN HILLS
REVENUES BY FUND

Total revenues for all funds are estimated at $44.8M. Two major projects are anticipated for this year—the reconstruction of Saguaro Boulevard through $8.2M voter-approved bonds and the Shea Boulevard widening project, mostly funded by federal grant money.

The General Fund portion represents approximately 31% of the total resources and is the main operating fund for the government. The Streets fund represents 5% while the excise tax fund represents only 1% of the total. Special Revenue (grants) and debt service represents 7%.

In the right direction but far to go....

The height of desert living.
The General Fund supports core services and is the largest fund with the greatest potential for revenue fluctuations. Revenues from the local sales taxes and Shared revenues provide the major resources to fund programs and services delivered by the Town—91%. The remainder is derived from permits, licenses, fees and charges for services at 9%.

In FY13-14 the Town allocated Vehicle License Tax (a shared revenue) to the Highway User Revenue Fund for pavement management—a reduction of $800,000 in the General Fund. This transfer of revenue will continue in FY14-15 with the estimated budgeted revenue of $867,000.

Capital Projects proposed for FY14-15 ... and how they will be paid for ... Capital projects are funded with bond proceeds (if approved by voters), grant funds or use of fund reserves. The Town has $7.3M in reserves in the Capital Improvement Projects (CIP) Fund that accumulated when the economy was booming from construction sales tax and General Fund surpluses. Construction sales tax is a one time revenue that should be used for one time expenditures; until construction activity resumes, there are limited resources being added to the CIP fund.

Voters approved, in November 2013, $8.2M in road bonds to reconstruct Saguaro Boulevard. Construction will begin in the Fall of 2014; this project is the first step in a sustainable pavement management cycle. The Town Council has established road maintenance as a priority, second only to public safety, in the upcoming fiscal year and will focus on alternatives to establish a program of sustainable pavement maintenance.

Below is a summary of proposed capital projects for FY14-15 and the funding source.
